TENDER FOR HANDICRAFT EMPORIUM (CONSTRUCTION & COMPLETE INTERIOR DEVELOPMENT, CIVIL, ELECTRICAL, FURNITURE AND SERVICES) AT BIKANER (RAJASTHAN)

1 PREAMBLE

Development Commissioner (Handicrafts), Ministry of Textiles, Government of India has formulated "Scheme of Infrastructure and Technology Support- National Handcarts Development Programme (NHDP)". The proposed project involves the setting up of new Handicrafts Emporium at Bikaner (Raj.) under the initiative of Jai Bhairav Welfare Society, Bikaner. This emporium aims to serve as a central hub for showcasing, promoting, and marketing traditional handicrafts and artisan-made products that reflect the rich cultural heritage of Rajasthan and India at large.

In response to the growing need for a structured and professionally managed retail and exhibition space, this emporium will not only provide a platform for local artisans to display and sell their products but also act as a resource centre for preserving dying crafts, encouraging skill development, and supporting livelihood generation among artisan communities.

The emporium will be constructed on a plot measuring 25' x 40', with a total carpet area of 1800 sq. ft., spread over two floors. The project includes:

Civil construction,
Electrical installations,
Complete interior development,
Furniture and fixture setup,
Lighting and signage,
Climate and security control systems.

The design and execution will aim for high-quality standards, cost-effectiveness, efficient space utilization, and aesthetic appeal, with special emphasis on integrating traditional Rajasthani elements with modern retail concepts.

This document sets out the technical specifications, scope of work, general and special conditions of the contract, bill of quantities, and other relevant terms for inviting tenders from competent reputed firms/agencies/companies/enterprises/contractors or any other firms for carrying out interior designing and execution work and other various work in establish a new emporium at Bikaner for the successful completion of the said project.

The project is part of a broader mission of the Society to empower artisans, preserve cultural heritage, and promote sustainable rural entrepreneurship.

- b) The tender document can be downloaded from 12-08-2025.

6 | CLARIFICATION ON THE TENDER DOCUMENT

The tenderers may ask for queries in any of the Scope of Work in the tender document before 48 hours of the opening of the tender. Such queries may be sent in writing to **Jai Bhairav Welfare Society**, **Out Side Nathusar Gate**, **Bikaner(Rajasthan)** or by e-mail to jbwsbkn@gmail.com. JAI BHAIRAV WELFARE SOCIETY, BIKANER will upload the clarification on www.jbws.in. It is binding on the part of tenderers to check the above said websites for any amendments or clarifications posted during the entire tender process.

7 AMENDMENT OF TENDER DOCUMENT

Jai Bhairav Welfare Society, Bikaner whether on its own initiative or as a result of a query, suggestion or comment of an Applicant or a Respondent, may modify the tender document by issuing an addendum or a corrigendum at any time before the opening of the tender, with the concurrence of the tender committee. Any such addendum or corrigendum will be uploaded on www.jbws.in and the same will be binding on all Applicants or Respondents or Tenderers, as the case may be.

8 AUTHORIZATION OF THE TENDERER

The Tender should be signed on each page by the tenderer or by the person who is duly authorized for the same by the tenderer.

9 PRE-VISIT OF SITE

The tenderer, on his/her own responsibility, risk and cost, is advised to visit and examine the site of works (Out Side Nathusar Gate, Bikaner-Rajasthan) and its surroundings and obtain all information that may be necessary for preparing the bid and entering into a contract for the work(s) as mentioned in the Annexure (I).

10 SPECIFIC INSTRUCTIONS TO BIDDERS/CONTRACTORS FOR QUOTING OF RATES

- (a) The contractors are requested to read the detailed specification and quote the rates clearly in the Price bid. Quoting the rates in the Price bid will only be taken up for comparison and shall be final.
 - The tenders invited are based on item wise rates mentioned in the estimate of works. Any lumpsum deductions or increase or rebate offered either in the tender or in the covering letter or at any portion of the tender will be ignored and only the rates offered in the Price bid alone will be taken as valid rates and taken up for tender comparison. Rates or Lumpsum amounts for items not called for shall not be included in the tender. Any alteration made by tenderer in the contract form, the conditions to Contract, the drawings, specification, or quantities accompanying the same will not be recognized and if any such alterations are made the tender will be void.
- (b) The tenderer / contractor will make his/her/their own arrangements to procure and use Brand Cement and Brand steel required for the work.
- (c) It should be clearly understood that the rate quoted by the tenderer / contractor is inclusive of incidental charges such as conveyance, loading, unloading, stacking at site and testing charges etc., complete.
- (d) The tenderer / Contractor should strictly follow above instructions without fail.

11 SUBMISSION OF TENDER IN TWO COVER SYSTEM

- a) Every page of the terms and conditions of the tender document should be signed and enclosed with the tender, in token of having accepted the tender conditions. Failing which the tender will be rejected summarily.
- b) Tenders should be submitted in two parts:
 - a. Part I will cover technical bid and
 - b. Part II will cover price bid
- c) Tenderers should ensure submission of all documents pertaining to Part-I and Part II proposals separately as per the Check list given in Annexure -IX.
- d) Tenderers are requested to place Part I and Part II documents in separate sealed covers. Part I cover to be superscripted as "Part I Technical bid" and Part II cover to be superscripted as "Part II Price bid" respectively, mentioning the name and address of the Tenderer in each of the both covers. These two sealed covers (Part I and Part II) must be placed in a single outer cover superscripted as "Tender for Handicraft Emporium (Construction & Complete Interior Development, Civil, Electrical, Furniture and Services) at Out Side Nathusar Gate, Bikaner (Rajasthan) mentioning the name and address of the Tenderer in the outer cover. Tenders shall be submitted in sealed cover and unsealed tenders would summarily be rejected.
- e) Tenders should be dropped only in the tender box kept at the office of "Jai Bhairav Welfare Society, Out Side Nathusar Gate, Dist.-Bikaner, Rajasthan" on or before 05: 00 PM on 12.08.2025. Tenders will not be received by hand.
- f) Alternatively, the tenders can be submitted through registered post so as to reach the above address on or before 05:00 PM on 12-08-2025. Tenders received after the specified time will not be considered and JAI BHAIRAV WELFARE SOCIETY, BIKANER will not be liable or responsible for any postal delays.
- g) A tender once submitted shall not be permitted to be altered or amended.

12 | EARNEST MONEY DEPOSIT

- (a) EMD of 50,000/- (Rs Fifty thousand only) in the form of a Demand Draft of a scheduled bank in the name of **Jai Bhairav Welfare Society** payable at Bikaner, Rajasthan valid for at least 60 days from the date of opening of the tender. EMD of the unsuccessful bidders shall be refunded without any interest at the earliest after the finalization of the purchase of the concerned item.
- (b) The tenderer should submit "BID SECURITY DECLARATION" as per the format given in Annexure VI, failing which the bid is liable for rejection.
- (c) If the tenderer emerges as the successful bidder and after subsequent issuance of letter of acceptance by the Jai Bhairav Welfare Society, failure to sign the agreement, to remit the Security Deposit or to execute the contract as per tender conditions, will result in blacklist of the firm up to a maximum period of 3 years.

13 VALIDITY

- (a) The rate quoted in the Tender should be valid for the acceptance by the Jai Bhairav Welfare Society, Bikaner for a minimum period of 180 days from the date of opening of the Tender.
- (b) The accepted rate of the successful tenderer is valid till the entire contract is fully completed. Escalation in the rates will not be entertained under any circumstances.

14 OPENING AND EVALUATION OF THE TENDER

- (a) The tender box will be closed at 5:00 PM as per the office clock on 12-08-2025 and the received tenders in the tender box will only be opened. Tenders received after specified date and time will not be accepted. The Tender will be opened by the Tender committee at 11:00 AM on 13-08-2025 in the presence of the available Tenderers/representatives of the Tenderers who choose to be present. The Tenderers or their authorized agents are allowed to be present at the time of opening of the tenders.
- (b) Tender Committee will inform the attested and unattested corrections, before the Tenderers and sign all such corrections in the presence of the Tenderers. If any of the Tenderers or agents not present then, in such cases the Committee will open the tender of the absentee Tenderer and take out the unattested corrections and communicate it to them. The absentee Tenderer should accept the corrections without any question whatsoever.
- (c) If the date fixed for opening of the tender happens to be a Government holiday, the sealed tenders will be opened at 5:00 PM on the next working day.
- (d) The Technical bid will be evaluated by the tender committee in terms of the qualification criteria. The committee reserves the right to disqualify any of the tender in case the Committee is not satisfied with the documents furnished.
- (e) After the completion of evaluation of technical bids, the tenderers declared as qualified by the Committee, will be informed the date of opening of Price bid.

15 PRICE OFFER

- (a) The Price bid should be kept only in the Part II cover.
- (b) The price bid should be prepared as per Annexure-VIII.
- (c) The price should be neatly and legibly written both in figures and words.
- (d) In case of discrepancy between the prices quoted in words and figures lower of the two shall be considered.
- (e) If a bidder quotes NIL charges/consideration, the bid shall be treated as unresponsive and will not be considered.

Part-II bid should not contain any commercial conditions. Variation in the commercial terms and conditions of the tender will not be accepted.

16 EVALUATION OF THE PRICE

- (a) The Tender committee will examine for complete, properly signed and error-free nature of the Price bid (Part II)
- (b) The comparison of the rates offered shall be based on the total all inclusive rates offered (i.e. sum of all inclusive rate offered for all the tendered items).

17 AWARD OF CONTRACT

(a) The Tenderer who has quoted lowest price (L1) will be issued the 'Letter of Acceptance' by the Implementing Agency.

18 | SECURITY DEPOSIT

- (a) On receipt of the Letter of Acceptance from JAI BHAIRAV WELFARE SOCIETY, BIKANER, the successful tenderer should remit a Security Deposit (SD) of 5 % of the value of the contract in the form of Account payee Demand Draft from any Indian Nationalized/Scheduled Commercial Bank or irrevocable Bank Guarantee with a validity period of one year in favour of "Jai Bhairav Welfare Society", payable at Bikaner, within 10 (Ten) working days from the date of receipt of letter of acceptance.
- (b) Any other amount pending with JAI BHAIRAV WELFARE SOCIETY, BIKANER will not be adjusted under any circumstances, against the Security Deposit if so requested.
- (c) Security Deposit amount remitted will not earn any interest.

19 | ISSUE OF WORK ORDER

After payment of Security Deposit and successful execution of the agreement, Work Order will be released within 10 days by the IA. The successful tenderer should complete the Handicraft Emporium (Construction & Complete Interior Development, Civil, Electrical, Furniture and Services) within 90 days from the date of receipt of Work Order.

20 DEFECT IDENTIFICATION AND IT'S RECTIFICATIONS

- (a) Defect Liability period shall be 6 months from the date of the completion of work. Any defect arising in the work in guarantee period due to faulty workmanship and faulty materials should be rectified by contractor at his own cost.
- (b) Any deficiency in concreting such as cracking, excessive honeycombing, exposure of reinforcement or other fault which entail replacement of the defective part by fresh concrete and whatsoever remedy reasonable required without hampering the structural safely and architectural concept, all at the cost of contractor.
- (c) Defect Liability, if any, shall be covered from the Security Deposit (SD) submitted as per Clause 19 (a).

21 EMPLOYMENT OF TECHNICAL ASSISTANTS

- (a) The tenderer shall employ qualified technical persons at his cost to supervise the work and the tenderer should ensure the presence of the technical persons at the site of work during working hours, monitoring all items of works and paying extra attention to such works as may demand special attention.
- (b) A movement register should be opened and maintained for Technical persons employed by the Contractor. The Technical persons should note the arrival and the departure timings every day along with their initials in a register. Such Register should be produced during inspection of the Inspecting Officers (Tender committee members).

22 | PAYMENT TERMS

- (a) 50% of contract value will be paid after given the work order.
- (b) 25% of the contract value will be paid on completion of 75% of work as per work order.
- (c) The balance 25% and SD will be released only after satisfactory completion of the entire contract based on the inspection report by Tender Committee.
- (d) JAI BHAIRAV WELFARE SOCIETY, BIKANER also reserves the right to recover any dues from the tenderer, which is found on later date, during audit/excess payment, after final settlement is made to them. The successful tenderer is liable to pay such dues to the JAI BHAIRAV WELFARE SOCIETY, BIKANER immediately on demand, without raising any dispute/protest.

23 | PENALTY

- (a) Failure to execute the entire contract within the stipulated time as mentioned in Clause 21, due to delay on the part of the Contractor from the date of issue of work order / advance payment, as the case may be, will attract a penalty of 1% per week, on the full value of the contract up to a maximum of 5%. Delays, on the part of Contractor, beyond that period will result in cancellation of the Contract.
- (b) Implementing agency reserves the right to inspect the site at any point of time during the contract period to ensure the progress and quality of work carried out. During the inspection, if any discrepancies found in the quality of work / material used, the JAI BHAIRAV WELFARE SOCIETY, BIKANER, with the approval of the tender committee, reserves the right to order for any rework(s) /replace any item(s) of material, as the case may be, in order to ensure the quality of work / progress as per the contract terms.
- (c) All the materials used for construction shall be first use, new, high quality material. Old or Used materials will not be accepted and if found, the decision of Committee, either for rework / replace / deduction in payment shall be binding on the contractor.
- (d) Any delay on the part of JAI BHAIRAV WELFARE SOCIETY, BIKANER should be intimated and sorted out immediately without affecting the progress of works.

24 TERMINATION OF CONTRACT

JAI BHAIRAV WELFARE SOCIETY, BIKANER reserves the right to terminate the contract at any time during the validity period on account of non-fulfillment of contract or for any of the reasons.

25 GENERAL CONDITIONS

- (a) Conditional tender in any form will not be accepted.
- (b) Any notice regarding any matters, to the contractor shall deemed to be sufficiently served, if given in writing to his usual or last known place of business.
- (c) Tender committee reserves the right to relax or waive or amend any of the tender conditions.
- (d) The successful tenderer shall not outsource/off load either full or part of the work to any other agency / individual.
- (e) If the performance of the tenderer is not as per the schedule, then tender committee reserves the right to cancel / reallocate full or part of the contract, at any stage of the contract execution.

26 JURISDICTION OF THE COURT

Any dispute arising out of non-fulfillment of any of the terms and conditions of this Agreement or any other dispute arising out of the arbitration award will be subject to the jurisdiction of the Courts in the City of Bikaner only.

We agree to the above terms and conditions.

		7 Hardware & Accessories	rage 12
		 7. Hardware & Accessories Hinges: Soft-close, SS (Hettich, Ebco, or equivalent). Drawer Channels: Heavy-duty telescopic channels. Handles: SS finish. Edge Banding: 2 mm PVC edge banding on all exposed edges. 8. Finish Laminate Finish: 1 mm thick decorative laminate in approved shade (Greenlam, Merino, Century). Polish: PU or melamine polish for veneer surfaces. Paint: Two coats of PU or NC paint on MDF if specified. 9. Electrical Provisions Provision for LED strip lighting inside display racks. All wiring concealed in PVC conduits, modular switches 	
		(Legrand or equivalent).	
7.	Wall Putty & Plastering	1. GENERAL REQUIREMENTS All plastering and putty works shall comply with CPWD Specification All materials should be approved brand Workmanship should be as per good trade practice. MATERIALS 1. Cement Ordinary Portland Cement (OPC) 43 grade / PPC conforming. Fresh and from approved source. 2. Sand Fine aggregate shall conform, Sand shall be clean, well-graded, and free from clay, silt, or organic matter. 3. Water Potable, clean, and free from harmful substances. 4. Wall Putty White Cement-based Putty of approved brand (JK Wall Putty, Birla White, or equivalent). 3. SURFACE PREPARATION All walls shall be cleaned of dust, mortar droppings, and loose particles. Wet the surface thoroughly before plastering. Remove all efflorescence and apply a slurry coat of cement (cement: water ratio 1:1.5) before plaster. 4. PLASTERING WORK 4.1 Thickness Internal Walls: 12 mm cement plaster (1:6) OR 15 mm (1:6) in two coats as specified. External Walls: 18 mm cement plaster (1:6) in two coats OR as per design. 4.2 Mix Ratio Cement: Sand = 1:6 for general plaster. For finishing layer, ratio can be 1:4 for smooth finish. 4.3 Application First Coat: 10 mm thick in 1:6 mix. Second Coat: 6 mm thick in 1:4 mix (finish coat). Apply undercoat, roughen surface for bonding before applying the finish coat. Ensure verticality and level using plumb bob and straight edge.	approx 5000 sq. feet
		 4.4 Curing Cure plastered surface for minimum 7 days continuously. 	

		Page 13
	5. WALL PUTTY WORK Apply after plaster is fully dry (minimum 15 days curing). First Coat: Apply 1–1.5 mm thick layer of wall putty using a putty blade. Second Coat: After drying, apply another 1 mm coat for smooth finish. Final Thickness: 2 mm approx. Smooth the surface by wet rubbing using emery paper after drying. Ensure a perfectly level and smooth finish before painting. Finished plaster shall be true to plumb and smooth without cracks, hollows, or unevenness. Finished plaster shall be true to plumb and smooth without cracks, hollows, or unevenness. Nariation in flatness should not exceed 3 mm when checked with a 2 mm straight edge. MEASUREMENT Plaster shall be measured in square feet of actual surface finished MODE OF PAYMENT Payment shall be made on the basis of finished surface area in sq. feet. Rate to include: Surface preparation Material & labor Curing Scaffolding Complete finishing ready for painting BRANDS (APPROVED) Wall Putty: Birla White / JK Wall Putty / Asian Paints Putty. Well Putty: Birla White / JK Wall Putty / Asian Paints Putty.	rage I
8. Wall Painting	Sand: Washed river sand. 1. GENERAL REQUIREMENTS • Painting work shall be carried out strictly in accordance with CPWD Specifications. • Paints and primers must be from approved brands • All materials must be first quality, fresh stock, and approved by the Engineer-in-Charge.	approx 1500 sq. feet
	2. MATERIALS • Primer for Plastered Surfaces: ○ Water-based Cement Primer. • Putty: ○ White Cement-based Wall Putty of approved brand (Birla White, JK, Asian Paints). • Paint Finish: ○ Interior Walls: Plastic Emulsion Paint / Acrylic Distemper (washable). ○ Exterior Walls: Exterior Acrylic Emulsion (weatherproof & UV-resistant). • Brands (Approved): ○ Asian Paints / Nerolac / Berger / Dulux / Shalimar.	
	 Ensure plaster is fully cured and dried (minimum 15 days after plastering). Clean surface of dust, grease, mortar droppings. Scrape off any loose paint or lime wash. Fill cracks with approved crack filler compound. Apply two coats of wall putty for a smooth finish, sand with emery paper after drying. 	

			Page
		4. APPLICATION PROCEDURE 4.1 Primer	
		Apply one coat of water-thinkable cement primer on dry	
		plastered walls using brush or spray.	
		 Allow 6–8 hours drying before next coat. 4.2 Wall Putty 	
		• Apply 1–2 mm thick wall putty in 2 coats for smoothness.	
		Rub down with fine emery paper after drying.	
		4.3 Interior Painting	
		Apply two or more coats of Plastic Emulsion Paint	
		 (approved shade) over primer and putty finish. Each coat to be thinned with water as per manufacturer's 	
		instructions and allowed to dry for minimum 6 hours before	
		next coat.	
		4.4 Exterior Painting	
		 Apply primer coat of exterior primer. Apply two or more coats of Exterior Acrylic Emulsion 	
		(weatherproof).	
		 Minimum coverage: 4–5 m² per liter per coat depending on 	
		surface.	
		5. PAINT FINISH TYPES • Interior:	
		Option 1: Acrylic Washable Distemper –	
		Economical.	
		 Option 2: Premium Plastic Emulsion – Durable and smooth finish. 	
		Exterior:	
		Exterior Acrylic Emulsion with silicon additives for	
		waterproofing.	
		Good quality brushes, rollers, or spray gun.	
		Good quality brushes, rollers, or spray gun.Sandpaper for surface preparation.	
		Clean buckets and mixing paddles.	
		7. CURING / DRYING	
		 No curing required for paint, but ensure each coat is completely dry before applying the next. 	
		8. TOLERANCES & FINISH	
		 Painted surfaces shall be even, uniform, and free from 	
		 brush marks, cracks, or patches. Shade and finish shall be consistent across the entire surface. 	
		Shade and timish shall be consistent across the entire surface. MEASUREMENT	
		Measured in square meters of painted surface.	
		• Deductions for openings exceeding 0.5 m ²	
		10. MODE OF PAYMENT • Rate shall include:	
		 Rate shall include: Surface preparation (scraping, cleaning, putty 	
		work).	
		o Primer coat, two coats of paint.	
		Scaffolding and labor charges.All tools and equipment.	
		11. APPROVED BRANDS	
		• Plastic Emulsion / Exterior Paint: Asian Paints (Tractor /	
		Royale / Apex), Berger (WeatherCoat), Nerolac, Dulux. • Primer: Asian / Berger / Nerolac.	
		• Putty: JK / Birla White / Asian Paints.	
	W. 11.5	·	
).	Wall Paneling Work	1. GENERAL REQUIREMENTS	
		Work shall be carried out as per:	as per work or
		 Good industry practices for interior finishes. 	site
		• The paneling shall be true to line , level , and plumb , free	
		from warps and visible joints. • Approved shop drawings to be followed for design,	
		dimensions, and joint details.	

2. MATERIALS

2.1 Base Framework

- Wooden Framework:
 - 2"x1" (50mm x 25mm) seasoned hardwood battens, moisture content 12% ± 2%.
 - Treated with anti-termite and preservative chemicals.
- Alternate Option:
 - o MS tube framework (25mm x 25mm, 18 gauge), powder-coated, rust-proof.

2.2 Panel Surface

- Option 1: 12mm/19mm thick BWR grade plywood finished with:
 - o Decorative Laminate (1mm thick) OR
 - o Natural Veneer (0.6mm thick) with PU polish.
- Option 2: MDF board for PU paint finish.
- Option 3: ACP (Aluminum Composite Panel) for contemporary look.

2.3 Backing & Insulation

- Backside to have 6mm ply for rigidity where required.
- Acoustic or thermal insulation (Glass wool / Rock wool) if specified.

2.4 Adhesive & Hardware

- Synthetic resin adhesive
- Screws: SS or brass, rust-proof.
- Joinery: Adhesive + Mechanical fixing.
- Edge Banding: 2mm PVC tape for laminate finish.

3. SURFACE PREPARATION

- Wall surface shall be clean, dry, and level.
- Base framework fixed to wall using:
 - Dash fasteners at 600mm c/c horizontally and vertically.
- Framework spacing: 450–600mm c/c both directions.

4. INSTALLATION

- **Step 1**: Fix framework with anti-termite treatment.
- **Step 2**: Apply plywood/MDF boards on framework with screws at 300mm c/c.
- Step 3: Finish with selected laminate/veneer/ACP using adhesive and edge banding.
- Step 4: For veneer sand and apply melamine/PU polish in 3 coats.
- Step 5: Provide skirting and edge trims as per design.

5. FINISH

- Laminate Finish: 1mm thick decorative laminate (Greenlam/Merino/Century).
- Veneer Finish: PU polish (clear or stain as approved).
- **Painted Finish**: PU or NC paint over MDF with primer and sanding.

6. JOINT DETAILS

- Joints shall be hairline and aligned.
- Provide grooves (6mm or as per design) between panels for aesthetics.
- No visible screw heads on finished surface.

7. MEASUREMENT

• Measured in square feets of the finished surface.

8. MODE OF PAYMENT

- Rate includes:
 - o Framework, panels, laminate/veneer/ACP.
 - o Adhesive, hardware, polishing/finishing.
 - Scaffolding and labor charges.
- Complete in all respects as per approved design.

9. APPROVED BRANDS

- **Plywood**: Century / Greenply / Kitply.
- Laminate: Greenlam / Merino / Century.
- Veneer: Greenlam / Century / Durian.
- Polish: Asian / ICA / Sirca, Adhesive: Fevicol SH / Pidilite.

			Page	16
10.	Floor Tiles & wall	1. MATERIALS	4000 sq. feet	
	tiles	Floor Tiles	approx	
		 Type: Vitrified Tiles / Double Charged / Glazed Ceramic (as per design). Size: 600x600 mm or 800x800 mm (for showroom area), anti-skid for toilets. Water Absorption: <0.08% 		
		Brands: Kajaria / Somany / Johnson / Nitco / Orient Bell / or equitant		
		Wall Tiles		
		Type: Ceramic Glazed Tiles for wall dado, size 300x600 mm or 450x600 mm.		
		 Finish: Glossy or matte as per approved design. Brands: Kajaria / Somany / Johnson / Nitco. 		
		Adhesive & Grout		
		 Tile Adhesive: Polymer-modified adhesive Grout: Epoxy or cement-based colored grout of approved make. 		
		Approved brands: Roff / MYK Laticrete / Weber / Bal.		
		3. SURFACE PREPARATION		
		Base RCC/Plaster to be clean, level, and free from dust, grease, and laitance.		
		 Make the surface slightly rough for adhesion. Maintain proper slope in wet areas (to floor drain). 		
		4. BEDDING & FIXING Floor Tiling		
		 Option 1: 20 mm thick cement mortar bed (1:4) over base concrete. Apply neat cement slurry @ 3.3 kg/m² on bed. Fix tiles in line and level, lightly tapped with wooden mallet. Option 2 (Preferred): Fix tiles using Tile Adhesive on clean RCC screed. Apply adhesive evenly with notched trowel (3-4 mm thickness). 		
		o Press tiles and ensure uniform contact.		
		 4.2 Wall Tiling Use tile adhesive for fixing wall tiles. 		
		 Ose the adhesive for fixing wait ties. Maintain uniform joints (1.5–3 mm) using spacers. 		
		5. JOINT FILLING		
		 Fill tile joints with epoxy grout or cement-based colored grout after 24 hours of laying. Clean excess grout immediately. 		
		6. CURING		
		 Cement mortar bed and joints to be cured for minimum 7 days (if cement-based grout is used). 		

		7 FINISHING	rage 17
		 7. FINISHING Tiles shall be: True to line, level, and plumb. Free from lippage, cracks, and shade variation. Joints to be uniform and neat. 8. MEASUREMENT Measured in square feet of finished tile surface. 9. MODE OF PAYMENT Rate includes: Base preparation Adhesive / mortar bedding 	
		 Laying and joint filling Cleaning, curing, and scaffolding Complete in all respects as per design. 	
		 10. APPROVED BRANDS Tiles: Kajaria, Somany, Johnson, Nitco, Orient Bell. Adhesive/Grout: MYK Laticrete, Roff, Weber. Spacers: Roff / MYK. 	
11.	False Ceiling Work	1. GENERAL REQUIREMENTS • False ceiling shall be installed as per CPWD specifications, relevant IS codes, and manufacturer's recommendations. • All materials must be approved make. • Contractor shall provide material samples, and obtain approval before execution. • Work includes: • Framework (GI channels / aluminum sections) • Panels (Gypsum boards / Mineral fiber tiles / PVC laminated tiles) • Edge finishing and joint treatment • Painting / Lamination • Fixtures cutouts for lights, AC diffusers, sprinklers. 2. TYPE OF FALSE CEILING • Material: Gypsum Board (12.5 mm thick) or Mineral Fiber Acoustic Tiles (for acoustic properties). • Design: Grid ceiling or seamless gypsum ceiling as per showroom design. • Height: Generally 8'-10' clear height from finished floor level. 3. MATERIAL SPECIFICATIONS A. Framework • Sections: GI sections, hot-dip galvanized, thickness: 0.5 mm to 0.55 mm. • Components: • Perimeter Channel: 0.5 mm thick, 27 mm high. • Intermediate Channel: 45 mm × 15 mm, 0.9 mm thick. • Ceiling Sections: 80 mm × 26 mm, 0.5 mm thick. • Ceiling Sections: 80 mm × 26 mm, 0.5 mm thick. • Suspension System: • GI wire hangers (4 mm dia) with adjustable cleats at 1200 mm c/c.	2200 sq. feet approx

B. Panels

- Gypsum Board: 12.5 mm thick, tapered edge
- Mineral Fiber Tiles: 595 mm × 595 mm, thickness 12 mm / 15 mm, NRC ≥ 0.55, Fire resistant.
- PVC Laminated Tiles: For wet area ceilings.

C. Jointing & Finishing

- **Jointing Tape**: Fiber tape 50 mm wide.
- Jointing Compound: As per standards
- **Primer & Paint**: Two coats primer, two coats emulsion paint / laminate finish.

4. INSTALLATION DETAILS

- Mark ceiling level on all walls using laser level.
- Fix **perimeter channel** to walls with nylon sleeves & screws at 450 mm c/c.
- Suspend intermediate channels from ceiling slab using GI wire & cleats.
- Fix ceiling sections at 450 mm c/c.
- Place gypsum boards / tiles on framework, secure with screws (25 mm length).
- Provide cutouts for:
 - o Recessed lights / LED panels
 - o Air conditioning diffusers
 - Sprinklers / smoke detectors (if applicable)
- All cutouts to be finished with proper edge trims.

5. PAINTING & FINISHING

- Apply two coats of primer and two coats of premium emulsion paint (shade approved by Engineer-in-Charge).
- Alternatively, laminated finish for luxury look in display areas.

6. TESTING & QUALITY CHECK

- Check for:
 - Level tolerance: ±2 mm.
 - o Firmness of suspension.
 - o Smooth joints without visible cracks.
- Ensure no sagging under load.

7. APPROVED MAKES

- Framework: Gypsteel Ultra (Saint-Gobain), India Gypsum, USG Boral.
- Boards: Gyproc, USG Boral, Armstrong.
- Tiles: Armstrong, Gyproc, Aerolite.
- Paint: Asian Paints, Berger, Dulux.

8. CPWD DSR REFERENCE

- 13.50 to 13.60 False ceiling with gypsum board / mineral fiber tiles.
- 13.62 Providing and fixing calcium silicate / PVC laminated ceiling.

⊘ RECOMMENDED

- Type: Gypsum Board False Ceiling in display & sales areas.
- Acoustic Mineral Fiber Ceiling Tiles in office / cashier areas for noise reduction.
- **Height**: Maintain clear height of 8'-10'.
- Integrated **lighting** (LED panels), AC vents, and decorative grooves.

12.	Drinking water dispenser,	1. GENERAL REQUIREMENTS	01 Water
	Plumbing Work and	All plumbing and sanitary works shall conform to:	Dispenser
	Rest Room	• CPWD Specifications 2022 (Part – Plumbing)	1
	Accessories	 Water supply fittings 	and
		Sanitary appliances Lie first quality approved marked (accelent materials)	other as per
		 Use first-quality approved marked / equalant materials. All installations shall be tested for leakproofness and performance before handover. 	work on site
		2. DRINKING WATER DISPENSER	
		Type: Floor Standing / Wall Mounted with Cooling facility.	
		• Capacity: 40–80 liters per hour cooling capacity (suitable	
		for staff & visitors).	
		Body: Stainless Steel, corrosion-resistant. Compressor Hermatically scaled assafricately refrigerent.	
		 Compressor: Hermetically sealed, eco-friendly refrigerant (R134a or better). 	
		Water Outlet: Self-closing push-type faucet for hygienic dispensing.	
		 Electrical Requirement: 230V, 50 Hz, single phase. Brands: Blue Star, Usha, Voltas, Racold. 	
		3. PLUMBING WORK	
		3.1 Water Supply System	
		Pipes:	
		 Internal: CPVC pipes with solvent cement joints Valves & Fittings: Brass full-way valves 	
		• Pressure: Pipes shall withstand min. 10 kg/cm ² .	
		3.2 Drainage System	
		Pipes:	
		o Soil & Waste: UPVC SWR pipes (IS:13592) with	
		rubber ring joints.	
		 Ventilation pipes Slope: Min. 1 in 40 for waste pipes, 1 in 60 for soil pipes. 	
		• Traps: Floor traps – SS gratings, deep seal.	
		3.3 Water Storage	
		 Overhead Tank: HDPE/LLDPE tank of required capacity with lockable cover. 	
		• Float Valve: Brass, heavy-duty.	
		3.4 Fixtures & Fittings	
		• Wash Basins: Vitreous china, size 550x400 mm.	
		• WC (Toilets): Floor-mounted European type, S/P trap, white	
		color.	
		 Urinals: Ceramic, with automatic flush valve. Taps: Chromium-plated brass taps 	
		 Health Faucet: ABS, flexible pipe, wall bracket. 	
		Mirror: 5 mm beveled edge with SS frame.	
		4. RESTROOM ACCESSORIES	
		Soap Dispenser: Wall-mounted, ABS/SS, 500 ml capacity. Tayyol Dispenser: Payantayyol on long dispenser (automatical).	
		• Towel Dispenser: Paper towel or hand dryer (automatic, 1000–1500 W).	
		• Grab Bar: SS, 32 mm dia, in handicapped toilets.	
		Dustbins: SS pedal-operated bins. Public Street Stre	
		 Exhaust Fan: PVC frame, 230 mm dia, 1400 rpm. Toilet Roll Holder: SS, wall-mounted

	software, Printers	• All IT equipment must be brand new, latest generation,	specifications
		and energy efficient.	_ ^
		All equipment shall come with minimum 1-year onsite	
		warranty, and original manufacturer authorization	
		certificate (if required).	
		All software must be genuine, licensed, and pre-installed	
		where applicable.	
		2. COMPUTERS	
		2.1 Desktop Computers	
		Processor: Intel Core i5 12th Gen / AMD Ryzen 5 (or bigher)	
		higher).	
		• Clock Speed: Base frequency 2.5 GHz or higher.	
		• RAM: 8 GB DDR4 (expandable to 16 GB).	
		Storage: 512 GB SSD (NVMe) or 256 GB SSD + 1 TB HDD	
		HDD.	
		Graphics: Integrated Intel UHD or AMD Radeon.	

- **Display**: 21.5" LED Monitor (Full HD).
- Networking:
 - o Gigabit Ethernet Port.
 - o Wi-Fi 802.11ac and Bluetooth 5.0.
- Ports:
 - Minimum 4 USB (including USB 3.0), HDMI, Audio Jack.
- **OS**: Windows 11 Professional (64-bit) licensed copy.
- Keyboard & Mouse: wired/wireless set.

Approved Makes:

HP / Dell / Lenovo / Acer.

2.2 Laptops (Optional – For Billing/Manager Use)

- **Processor**: Intel Core i5 12th Gen / AMD Ryzen 5.
- RAM: 8 GB DDR4.Storage: 512 GB SSD.
- **Display**: 14" Full HD, Anti-glare.
- **OS**: Windows 11 Professional.
- Ports: HDMI, USB 3.0, USB-C, Audio.
- Weight: Less than 1.8 kg.

Approved Makes:

HP / Dell / Lenovo.

3. SOFTWARE

- Operating System: Windows 11 Pro (licensed).
- Office Suite: MS Office 2021 (Home & Business) OR Office 365 subscription.
- Accounting/Inventory Software:
 - o TallyPrime (for GST compliance).
 - OR ERP system as per user requirement.
- Antivirus: Quick Heal / Kaspersky / McAfee 3-year license.
- **Billing Software**: Retail POS software (multi-user license) compatible with printers & barcode scanners.

4. PRINTERS

- 4.1 Laser Printer (Monochrome)
 - **Print Speed**: 20–25 pages per minute.
 - **Print Resolution**: 600 x 600 dpi.
 - Connectivity: USB 2.0 and Wi-Fi.
 - **Duty Cycle**: 5,000 pages per month.
 - **Toner**: Easy refill or cartridge replacement.
 - Example Models: HP LaserJet Pro M126, Canon LBP 6030.
- 4.2 Multifunction Printer (MFP)
 - Functions: Print, Scan, Copy.
 - Type: Laser, A4 size.
 - **Print Speed**: 20 ppm or more.
 - Connectivity: USB, Wi-Fi (optional).
 - ADF (Automatic Document Feeder): Preferred.
- 4.3 Color Printer (For Marketing Material)
 - Type: Inkjet or Laser.
 - **Resolution**: Minimum 1200 x 1200 dpi.
 - Connectivity: USB/Wi-Fi.
 - **Preferred Brands**: HP, Canon, Epson.

5. PERIPHERALS

- **Barcode Scanner**: Handheld, USB interface, 1D/2D barcode capable.
- Thermal Printer: For billing slips (80 mm width).
- UPS: 1 KVA with minimum 30 minutes backup for computers & printers.

6. INSTALLATION & COMMISSIONING

- Proper wiring and LAN setup for billing counters and office.
- Printer & software configuration for billing system.
- Network sharing setup for printers.
- Training for staff on software usage (Tally / POS system).

7. WARRANTY & MAINTENANCE

- Minimum 1-year onsite warranty on all hardware.
- OEM certified maintenance & AMC option after warranty.

		TB).	
		• Features:	
		 HDMI/VGA Output for display. 	
		 Remote viewing via mobile app. 	
		 Backup via USB. 	
		2.3 Display Monitor	
		• Size: 32" LED Monitor, Full HD (1920x1080).	
		• Type: LED backlit, wall-mounted near the security desk or	
		manager cabin.	
		2.4 Networking & Accessories	
		• Switch: 8-Port Gigabit POE Switch (for IP Cameras).	
		• Cables: CAT-6 UTP Cable with ISI marking.	
		• Connectors: RJ-45 with crimping.	
		 Conduits: ISI-marked PVC conduit with accessories. 	
		 Power Backup: UPS 1 KVA for 30 minutes backup. 	
		3. INSTALLATION REQUIREMENTS	
		 All cameras should be mounted on MS brackets with 	
		anchor fasteners.	
		Cable routing in concealed conduits with proper junction	
		boxes.	
		 NVR installed in a locked rack/cabinet. 	
		 Label all cables for easy maintenance. 	
		 Provide LAN connectivity for remote access. 	
		Complete system testing before handover.	
		4. DISPLAY & CONTROL	
		• 32" LED monitor for live view.	
		 Option for split screen (4/8 view). 	
		 Provide mobile app and PC software for remote viewing. 	
		The same upp und I o solemule for femole viewing.

Requirements for CO: Type Extinguishers 4. Installation height max 1.5 m from floor level. 4. Fire extinguishers shall be brand new, scaled, and provided with wall-mounting brackets. 5. Each extinguisher must have: 2. Discharge nozzle and hose. 3. Pressure gauge for DCP/ABC types. 4. Date of manufacture and refill instructions. 2. TYPES & CAPACITY OF EXTINGUISHERS REQUIRED For a handicraft showroom (wooden items, fabrics, electrical fittings), the following types are recommended: 2.1 ABC Dry Powder Type Extinguisher 4. Capacity: 6 kg 4. Media: Mono-Ammonium Phosphate Dry Chemical Powder 4. Propellant: Nitrogen/CO: Cartridge 4. Discharge Time: Min 13 sec 5. Test Pressure: 15 kg/m² 5. Application: Class A (wood, paper, cloth), Class B (flammable liquids), Class C (electrical fries) 6. Location: Min showroom area, near entrance & cash counter. 7. 2. CO: Type Fire Extinguisher 6. Capacity: 4.5 kg 7. Media: Carbon Dioxide 8. Discharge Time: Min 15 sec 9. Application: Electrical Panels, Server, Computer Area 9. Location: Office area, near billing and computer section. 2.3 Water CO: Type Fire Extinguisher (Optional – for wooden handicrafts storage) 9. Capacity: 9 liters 9. Media: Water 9. Application: Class A fires only (wood, paper) 1. Location: Storage area (if large quantity of wood products). 3. QUANTITY & PLACEMENT (NBC Norms) 9. Minimum 1 extinguisher for every 100 sq. m area. 1. For 1800 sq. ft. (-167 sq. m), minimum: 2. ABC Type (4.5 kg) – 2 Nos. 1. Install.LAITON REQUIREMENTS 1. Mount on wall using brackets or stands at 1.0–1.5 m above finished floor. 1. Provide signage and operation instructions above cach extinguisher. 4. Fire extinguishers to be easily accessible and not blocked by					
 Fire extinguishers shall conform to: Portable Fire Extinguishers (Latest Revision) Selection, Installation, and Maintenance Requirements for CO: Type Extinguishers Installation height max 1.5 m from floor level. Fire extinguishers shall be brand new, sealed, and provided with wall-mounting brackets. Each extinguisher must have:					
o Portable Fire Extinguishers (Latest Revision) o Selection, Installation, and Maintenance o Requirements for CO₂ Type Extinguishers e Installation height max 1.5 m from floor level. Fire extinguishers shall be brand new, sealed, and provided with wall-mounting brackets. Each extinguisher must have: o Discharge nozzle and hose. o Pressure gauge for DCP/ABC types. O Date of manufacture and refill instructions. Z.TYPES & CAPACITY OF EXTINGUISHERS REQUIRED For a handicraft showroom (wooden items, fabrics, electrical fittings), the following types are recommended: 2.1 ABC Dry Powder Type Extinguisher o Capacity: 6 kg Media: Mono-Ammonium Phosphate Dry Chemical Powder Propellant: Nitrogen/CO₂ Cartridge Discharge Time: Min 13 sec Test Pressure: 15 kg/cm² Application: Class A (wood, paper, cloth), Class B (flammable liquids), Class C (electrical fires) Location: Main showroom area, near entrance & cash counter. 2.2 CO₂ Type Fire Extinguisher Capacity: 4.5 kg Media: Carbon Dioxide Discharge Time: Min 15 sec Application: Electrical Panels, Server, Computer Area Location: Office area, near billing and computer section. 2.3 Water CO₂ Type Fire Extinguisher (Optional – for wooden handicrafts storage) Capacity: 9 liters Media: Water Application: Class A fires only (wood, paper) Capacity: 9 liters Media: Water Application: Class A fires only (wood, paper) Location: Storage area (fi large quantity of wood products). 3. QUANTITY & PLACEMENT (MBC Norms) Minimum 1 extinguisher for every 100 sq. m area. For 1800 sq. ft. (-61 Sq. m), minimum: ABC Type (6 kg) – 4 Nos. CO; Type (45 kg) – 2 Nos. Install near exit doors, main entrance, staircase, and near electrical distribution panels. 4. INSTALLATION REQUIREMENTS Mount on wall using brackets or stands at 1.0–1.5 m above finished floor. Provide signage and operation instructions above cach extinguisher. Fire extinguishers to be easily accessible and not blocked by	17.	Fire Extinguishers		06 approx	
o Selection, Installation, and Maintenance o Requirements for CD Type Extinguishers Installation height max 1.5 m from floor level. 18.	LED Display	The LED display must be energy efficient, high-brightness, and designed for 24/7 operation. All components (screen, control system, power supply, mounting) shall be of approved make. Supplier shall provide minimum 1-year warranty and onsite installation & commissioning. Installation shall be done as per manufacturer's guidelines with proper safety and electrical protections.	01
		 2. TYPE & SIZE OF DISPLAY Type: Indoor LED Display for information and promotions. Screen Size: Minimum 55" LED Commercial Display Panel or Custom LED Video Wall (if larger display is required). Resolution: Full HD (1920×1080) or higher (for 55" unit). Brightness: ≥ 450 cd/m² for indoor display. Viewing Angle: 178° (H) × 178° (V). Contrast Ratio: ≥ 1200:1. Aspect Ratio: 16:9. 	
		3. PERFORMANCE FEATURES • Technology: LED-backlit LCD panel or direct-view LED for video wall. • Input Ports: ○ HDMI (minimum 2 ports) ○ USB, LAN ○ Optional: VGA, RS232 for control • Control Options: ○ Remote control. ○ RS232/LAN control for professional use. • Operating Hours: 24/7 continuous operation. • Power Supply: 230V ±10%, 50 Hz AC.	
		 4. MOUNTING & INSTALLATION Mounting type: Wall-mounted or Ceiling-mounted bracket. Provide concealed wiring in PVC conduit. Include modular socket outlet with surge protection near the display. All mounting brackets should be powder-coated MS with load-bearing capacity >2X display weight.
